

OPENGATE® is the first and only fully open, active walk-through weapons detection system composed of two independent and self-powered pillars. It is portable, elegant, easy to set up, and ready to use with no installation required.

WEAPONS DETECTION SYSTEM
Fast, Automatic, & Unprecedented Screening.

HIGHLIGHTS

Detection Target

- Multi-caliber weapons and IEDs

Operational Use

- Features a near zero rate of nuisance alarms and operates with very high transit flow

Quick Setup & Install

- Weighs only 25 lbs. with less than one minute setup time

Versatile

- Can be used at a variety of entrances or security checkpoint locations, either indoors or outdoors

First of its Kind

- Does not require any mechanical or electrical connection between the two transducers

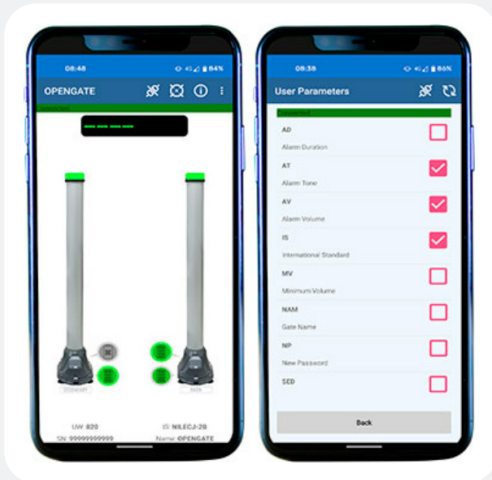

Available to Order Now

CEIA USA is a manufacturing company specializing in the design, engineering, and production of Metal Detectors and Electromagnetic Inspection Devices. Stark Tech’s Master System Integrators work with CEIA USA to incorporate these systems into building security infrastructure and building management systems for reliable, potentially life-saving responses in the field.

REMOTE MANAGEMENT WITH OPENGATE APP

Detection and signaling parameters can be easily set via the OPENGATE App designed for smartphones or tablets based on Android or iOS operation systems.

- ✓ **OPERATIVE SCREEN**
- ✓ **USER PARAMETERS**

FEATURES

360° Visual Alarm Indication

Carrying Handle

- A** On/Off Switch
- B** Battery Compartment (2X)
- C** Tilt Adjustment Feet

Easy to Relocate & Quick to Install

DIMENSIONS

- ✓ 19.7" x 11.8" x 72" mm (WxDxH)
- ✓ Operating Time (4 batteries): up to 14 hours
- ✓ Weight (without batteries): 24.2 lbs
- ✓ Charging time (2 batteries): 130 min
