

PROFESSIONAL AUDIO/VISUAL SOLUTIONS

Connecting people through **audio, visual, lighting,** and **communication technology**

AUDIO & COMMUNICATION

Audio Reinforcement | Microphone/Speaker Systems
 Paging | Background Music | Sound Masking
 Assisted Listening
 Audio Monitoring | Distributed Audio
 Indoor/Outdoor & Portable Audio

DISPLAYS

Projectors | LCD Displays | LED Video Walls
 Digital Signage | Interactive Displays

VIDEO DISTRIBUTION

Analog | Digital Networked Video Systems
 IPTV systems
 Video Presentation System

COLLABORATION & CONNECTED A/V

Audio/Video Conference Room Systems
 Distance Learning Systems | Voice Lift Systems

LIGHTING & CONTROLS

Lutron Lighting & Control Systems | Integration
 BMS Integration
 Shade Control

CLOCKS

Analog | Digital | Powered AC/DC | Battery

PUBLIC ADDRESS & CRITICAL MESSAGING

Public Address | Intercom | Critical Messaging
 Emergency Communications | Crisis Management
 Automated Lockdown | Visual and Audible Alerting
 Message Boards

NETWORKED AUDIO SYSTEMS

- Dante
- Q/SYS/Q-LAN
- CobraNet
- AVB
- AES
- PIDS/VIDS

SERVICE

System Evaluation & Takeover

Assess existing systems and provide ongoing service, upgrades, and support

System Repair & Response

Responsive support from local experts who understand your systems and facilities

Maintenance Agreements

Multi-year preventive and task-based maintenance programs designed around your systems

Preventive & Predictive Maintenance

Identify potential issues early to improve reliability and reduce unexpected downtime

Remote Monitoring & Management

Remote visibility into A/V system performance, status, and potential issues from a centralized location

Programming & Networking

Technical support to maintain system connectivity, functionality, and performance

Upgrades & Modernization

Extend system life and improve performance as technology and facility needs evolve

Ongoing Pro A/V System Training and Education

Continuous training for continually changing workforces

MASTER SYSTEMS INTEGRATION

Connecting building technologies through **unified integration and control** can **reduce operating costs by up to 30%** through IoT integration.

END-TO-END SUPPORT

- Professional A/V Consulting
- Upgrades & Retrofits
- System Design & Integration
- Installation & Commissioning
- Professional A/V End-User Training
- Ongoing Maintenance & Service

ONE CONNECTED ECOSYSTEM

- Professional Audio/Visual Systems
- Broadcast Systems and Infrastructure
- Digital Signage & Displays
- Public Address & Critical Messaging
- Lighting Systems/Controls & Infrastructure
- Communications & Network Systems
- Access Control
- Fire & Life Safety
- Video Surveillance
- Asset Management
- Facilities Dashboards & Automation
- Visitor Management
- Wi-Fi
- Energy & Power Management
